

## WAVEGUIDE ASSEMBLIES

### Designed To Your Specifications

- ▶ Diplexers
- ▶ Band Pass Filters
- ▶ Band Stop Filters
- ▶ High & Low Pass Filters
- ▶ Couplers

### Features & Benefits

- ▶ Highly accurate designs to reduce development costs.
- ▶ Design Facility supported by Virtual Gibbs & CAD/CAM, enabling designs to go straight from AutoCAD to CNC Program, resulting in superior performance and exceptional reliability.
- ▶ Vertically integrated processes allow for high-quality, quick response.
- ▶ Frequency Ranges covering 10 MHz to 40+ GHz.
- ▶ Painting & Chemical Finishing done in-house.
- ▶ Tuning to required specifications.
